

default_delegate_tofloat

default_delegate_tointeger

str2num

```
graph LR; A[default_delegate_tofloat] --> C[str2num]; B[default_delegate_tointeger] --> C;
```

The diagram consists of three rectangular boxes. On the left, there are two boxes stacked vertically. The top box contains the text 'default_delegate_tofloat' and the bottom box contains 'default_delegate_tointeger'. Both boxes have a thin black border. To the right of these is a single box containing the text 'str2num'. This box has a thicker black border and a light gray fill. Two blue arrows originate from the right side of the left boxes and point towards the left side of the 'str2num' box. The top arrow starts from the right edge of the 'default_delegate_tofloat' box, and the bottom arrow starts from the right edge of the 'default_delegate_tointeger' box. Both arrows converge towards the left edge of the 'str2num' box.
