

base_getstackinfos

thread_getstackinfos

__getcallstackinfos

```
graph LR; A[base_getstackinfos] --> C[__getcallstackinfos]; B[thread_getstackinfos] --> C;
```

The diagram illustrates a mapping where two distinct functions, `base_getstackinfos` and `thread_getstackinfos`, both point to a single target function, `__getcallstackinfos`. The source functions are represented by white boxes with black borders, while the target function is in a gray box with a black border. Blue arrows indicate the direction of the mapping from left to right.
